

LearnLoop · Micro-Learning for Working Professionals

Bite-sized skill modules, interactive flashcards & verified credentialing engineered for 10-minute commutes.

Role: Product Designer | Timeline: 2024 | Tools: Figma, Learning UX, Design System

01 Challenge & Hypothesis

Working professionals abandon 90% of lengthy video courses due to lack of continuous time blocks.

LearnLoop decomposes complex engineering and design curricula into 5-minute interactive swipeable flashcards and immediate quiz checkpoints.

02 Learning Outcomes

Course completion rate climbed from industry average of 12% to 64%.

Daily active engagement during morning transit hours grew by 82%.
