

Wanderly · Weekend Trip Planner for Busy People

Curated 48-hour itineraries, offline GPS caching & transparent upfront booking for spontaneous travelers.

Role: Lead UX Designer | Timeline: 2024 | Tools: Figma, Prototyping, Geolocation UX

01 The Problem

Planning a short weekend getaway takes an average of 6 hours across 8 browser tabs. Indecision often causes trips to be cancelled entirely.

Wanderly delivers complete 48-hour flight + hotel + activity bundles bookable in 3 taps with 100% offline navigation.

02 Conversion Impact

Weekend getaway booking conversion rate reached 14.2% (industry avg ~3%).

Offline sync prevented 100% of roaming connectivity drop issues in remote destinations.
