

StyleHub · Fashion Discovery That Fits

AI-assisted sizing matrix, virtual silhouette matching & 1-tap sustainable returns for online fashion.

Role: Digital Product Designer | Timeline: 2024 | Tools: Figma, E-Commerce CRO, User Flows

01 The Dilemma

Apparel e-commerce suffers from 38% return rates primarily due to sizing discrepancies and fabric mismatch.

StyleHub integrates real-body dimension mapping and community fabric stretch ratings right into the product page.

02 Return Rate Reductions

Size-related returns decreased by 41% across 12,000 orders.

Mobile checkout conversion rate increased by 22% with sticky size-selector bars.
