

MediCare+ · Clinic Appointments Without Waiting

Real-time doctor queue telemetry, instant digital prescriptions & tele-consultation in one tap.

Role: Senior UX Specialist | Timeline: 2024 | Tools: Figma, Healthcare UX, WCAG AAA

01 Healthcare Inefficiency

Patients waste an average of 48 minutes in waiting rooms, while doctors suffer from fragmented medical records and delayed triage.

MediCare+ provides live queue tracking with push alerts telling patients exactly when to leave home.

02 Clinical Outcomes

Average physical clinic wait room time slashed from 48 minutes to 8 minutes.

Digital prescription retrieval success rate reached 99.4%.
